

Datathon Slide Template

Rebecca C. Steorts

September 27 2018

Data set

- ▶ Explain the data set very quickly!
- ▶ You may want to give a quick visualization of the data set and what it looks like.

Exploring the Dataset

- ▶ How did you explore the data set?
- ▶ How did this motivate what method you used?
- ▶ Again, visuals please!

Challenges of the Dataset

- ▶ Note any challenges of the dataset.
- ▶ How did you deal with these?

Methods

- ▶ How did you analyze the data set
- ▶ Stick to your best method that worked
- ▶ How did you evaluate how your method worked

Methods (Continued)

- ▶ How did you analyze the data set
- ▶ Stick to your best method that worked
- ▶ How did you evaluate how your method worked

Results

- ▶ Highlight your results from the methods that you used
- ▶ Again, be sure to use visuals here.

Results (continued)

- ▶ Highlight your results from the methods that you used
- ▶ Again, be sure to use visuals here.

Conclusions

Here, you should provide some conclusions regarding the datathon, data analysis, etc.
